

Clarinet mouthpieces

Bb german and austrian systems

D

NEW

Mouthpieces designed for German system clarinet while using French cut reeds

- **M30 D and B40 D:**

The length and diameter of the shank, the bore, the appearance of the tip rail and the external shape are the components of this new concept, which offers a perfect balance between a very warm sound and great intonation.

- **BD5 D:**

Adaptation of the BD5 Black Diamond mouthpiece for Boehm Bb clarinet, the BD5 D produces a round, centered sound and offers a great stability and flexibility in playing.

56 rue Lepic and V21 reeds are particularly recommended for these mouthpieces.

NEW	CODE	COMMENTS
BD5 D	CM1805	The perfect balance between a dark, rich, yet compact sound.
M30 D	CM36188	A good balance between timbre and roundness.
B40 D	CM36078	Produces a compact and centered sound.

NEW

German clarinet mouthpieces designed for use with German reeds

D Series – In the pure German tradition. Available in three openings, this new series is the evolution expected by German clarinetists. It offers the artist an exceptional ease in playing and provides amazing flexibility during performance. Rich sound and great intonation are the main qualities of this series.

NEW	CODE	COMMENTS
D15	CM3815	A mouthpiece designed in the German tradition which provides a compact sound. Suited for both beginners in combination with soft V21 German reeds (2-2,5), and professionals for use with stronger V21 German reeds (3-3,5).
D20	CM3820	Medium opening and facing length, a perfect balance between flexibility and consistency. Recommended reed strengths: V21 German 2-3,5.
D25	CM3825	With a medium opening, this mouthpiece provides a full, centered sound with a rich spectrum of colors. It offers musicians a wide dynamic range while maintaining an excellent intonation. THE NEW STANDARD mouthpiece for German clarinet.

W

Austrian clarinet mouthpiece designed for use with Austrian reeds

NEW	CODE	COMMENTS
W 270	CM393	Traditional Viennese facing; dark sound and accurate response. Specially designed for harder reeds.
